Subject: Report out from 1/13 Bristol Bay Assessment Intergovernmental Technical Team Webinar

Folks:

I just wanted to give you a quick heads up that EPA's Bristol Bay team just wrapped up a successful 2 hour informational webinar with the Bristol Bay Assessment Intergovernmental Technical Team (IGTT). The IGTT is composed of reps from Federal and State agencies and Tribal governments. As was the case with our first IGTT meeting in August 2011, this meeting had broad Federal, State and Tribal attendance, the audience was very engaged asking questions/providing feedback and the entire dialogue was quite collegiate.

Thanks to all the hard work on the part of our partners in R10 and ORD, the webinar went very smoothly and I think participants found it to be informative. The webinar successfully conveyed how we incorporated IGTT feedback from August, that we continue to seek their input and continued to send the message that this assessment is being conducted in a transparent and collaborative manner.

Thanks, Palmer
